4. To a safe setting and to know that the services provided are effective and of a quality consistent with the standard of care within each profession and to know that sexual relations between a mental health provider and a client or former client are a violation of the law (RSA 330-A:36).
5. To obtain information, as allowed by law, pertaining to the mental health provider's assessment, assessment procedures and mental health diagnoses (RSA 330-A:2 VI).
6. To participate meaningfully in the planning, implementation and termination or referral of your treatment.

When obtaining informed consent for treatment for which safety and effectiveness have not been established, therapists will inform their clients of this and of the voluntary nature of their participation. In addition, clients have the right to be informed of their rights and responsibilities, and of the mental health provider's practice policies regarding confidentiality, office hours, fees, missed appointments, billing policies, electronic communications, managed care issues, record management, and other relevant matters except as otherwise provided by law.
